**Purpose of Inspection:**

The main purpose of the inspection was to determine the status of the mine and for the inspector to become familiar with the site.

**Inspection Summary:**

The bond is currently \$708,537 and is good through November 11, 2012. The Permittee paid the annual fees on July 13, 2009.

In the last inspection report, the inspector was concerned about trash along the drainage and in the sediment pond. The Permittee cleaned up the trash

**Conclusions and Recommendations:**

The mine is currently idle although some stockpiled material is or will be shipped to the mill. The Division will monitor the site to insure that all environmental requirements are met.
